SUMMARY

Meticulous and proactive Legal Executive currently pursuing a part-time Diploma in Legal Executive Studies at Temasek Polytechnic, with hands-on experience supporting lawyers across corporate and commercial matters, contractual and legal documentation, dispute resolution, regulatory compliance and general advisory work. Experienced in drafting, reviewing and organising legal documents, contracts-related records and correspondence; conducting legal and statutory research; identifying legal and procedural issues; preparing factual summaries and chronologies; supporting dispute and advisory matters; and maintaining accurate document repositories and matter records. Adept at coordinating with lawyers, clients, government agencies, accountants, banks, vendors and other internal and external stakeholders on time-sensitive legal, corporate and compliance workflows. Possesses practical exposure to the Singapore Personal Data Protection Act and EU General Data Protection Regulation through the development of a cross-jurisdictional privacy compliance analysis project addressing consent, purpose limitation, data retention, cross-border transfers and compliance ambiguity. Proficient in Microsoft Office, LawNet, NetDocuments, CoreMatter, e-Litigation and other legal and document-management systems. Strong in legal research, drafting, analytical reasoning, stakeholder communication and detailed record management, with a keen interest in developing within an in-house corporate legal and compliance function.

PROJECTS

Cross-Jurisdictional Privacy Compliance Analyzer- GDPR × PDPA

April 2026 - Present

Link: <https://github.com/pesedo00/gdpr-pdpa-checker>

- Collaborated on the development of a cross-jurisdictional privacy compliance tool comparing how similar privacy policy clauses may produce different compliance outcomes under the EU GDPR and Singapore PDPA.
- Analysed legal and regulatory issues relating to consent, purpose limitation, data retention, cross-border data transfers, and compliance ambiguity across different privacy frameworks.
- Contributed to the design of a compliance analysis workflow that goes beyond basic gap detection by identifying areas requiring legal interpretation and judgment.
- Strengthened legal research, regulatory analysis, issue-spotting, and structured legal reasoning skills through the application of privacy law concepts to practical compliance scenarios.
